## COLOUR THERAPY

Be it for gifting or personal use, you are sure to find something to add character to just about any space at the Nur store. Located at New Delhi's Meherchand Market, Nur has been making colourful home furnishings, accessories and furniture since 2007. The store's playful designs—from cushions to chairs, bedding to tableware—change every season, giving customers a whole new range of products to choose from. The constant experimentation coupled with their commitment to Indian craft traditions result in products that have a timeless quality, and can be cherished for years. (*nurbome.in*)

## IN GOOD LIGHT

The 'Vivian' suspension lamp by Masiero creates a pop-art effect with its bold colours and chrome finish. The polyurethane frame hides warm LED lighting with opaque acrylic diffusers. The bell-shaped lamp has been designed specifically to avoid shadow cones and disperse light evenly. The three-bulb suspension lights can be split into individual pieces, or combined in numerous compositions of shapes and colors. The 80-cm-high lamp has a modern and colourful form, adding a quirky touch to your decor. (*masierogroup.com*)

## BENCHMARK

Knock on Wood, a design studio in New Delhi's Hauz Khas village, has an elegant collection of handcrafted hardwood furniture. At the brand's state-of-the-art manufacturing unit in Chandigarh, a skilled team of carpenters, paint and polish experts, welders, and lathe operators work to ensure that each piece of furniture is created with great attention to detail. Painstakingly made over a period of nine months, the 'Ketch' bench (*pictured*) is built using reclaimed pieces of wood, sanded, and finished with white oil. Over six feet long, the bench is suited for both indoor and outdoor use. (*knockonwood.co.in*)
